RE: ARROW Enhancements

On October 31, 2016, the Minnesota Workers' Compensation Insurers Association, Inc. (MWCIA) released the latest enhancements to the Analytic Report Resource on the Web (ARROW) product. ARROW now has a responsive design allowing users to access ARROW functions from tablets and mobile devices. Also included is an enhanced region search resource, allowing users to search by zip code.

ARROW is a web-based product developed to allow carriers to perform queries against their own statistical plan data as well as comparative statewide data, and can be found on our website under the Carrier dropdown link at www.mwcia.org. Statewide queries are available to the general public. Carrier groups can gain access to carrier-specific queries from their Web Membership Group Administrator. If you have questions or would like hands-on training on the use of ARROW, please refer to the ARROW training module on our website, or contact our Actuarial staff by calling 952.897.1737, Option 3. If you have questions about Web Membership, please contact webmembership@mwcia.org.
