RE: ARROW Enhancements

On October 9, 2019, the Minnesota Workers' Compensation Insurers Association, Inc. (MWCIA) released the latest enhancements to the Analytic Report Resource on the Web (ARROW) product. ARROW now includes comparative statewide statistics for carriers running insurer-specific reports, all within the same report.

ARROW is a web-based product developed to allow carriers to perform queries against their own statistical plan data as well as comparative statewide data, and can be found on our website under the Carrier link at www.mwcia.org. Statewide queries are available to the general public. Carrier groups can gain access to carrier-specific queries from your Web Membership Group Administrator.

If you have questions or would like hands-on training on the use of ARROW, please refer to the newly updated ARROW training module on our website ([ARROW CBT](#)), or contact our Actuarial staff by calling 952.897.1737, Option 3. If you have questions about Web Membership, please contact webmembership@mwcia.org.
