Circular Letter No. 98-1297

RE: **CORRECTION NCCI Item B-1343 – Basic Manual Rule & Classification Enhancements**

The above filing was previously approved by the Minnesota Department of Commerce effective 12:01 a.m., January 1, 1998, applicable to new and renewal business only. Information concerning this filing was provided to the membership via Circular Letter No. 98-1289 released 1-13-97 (typo).

In reviewing proof copies of the approved manual changes from the National Council, it was noted that a proposed Minnesota exception for Code 5057 Concrete or Cement Distributing Tower Installation, Repair, or Removal would not be necessary as NCCI had corrected the 'C' pages of the Basic Manual to include this cross-reference. In light of this development, Minnesota has withdrawn its request for the addition of a Minnesota exception in connection with Code 5057.

Please note that the proposed language on the attached exhibit page contains underlined and strikethrough text. The underlining represents new or added text while the strikethroughs indicate deleted text. Also, please note that this exhibit demonstrates the originally approved changes along with the revised changes due to the correction of page C17 by the National Council.

Very truly yours,
MINNESOTA WORKERS' COMPENSATION
INSURERS ASSOCIATION, INC.

M. A. Johnson
Director of Und. Services
