PRESIDENT'S MESSAGE

Brandon Miller - President MWCIA

We are really excited to celebrate our 100th anniversary year in 2021. I think 100 years is a pretty significant milestone, not a lot of organizations make it that long.

When the MWCIA was created back in 1921 it was a different world, workers' compensation was brand new in Minnesota. Over the years, the organization has been responsible for workers' compensation ratemaking and statistical reporting, but also for high-risk auto policies, and assigned risk workers' compensation policies.

Even though our organization has gone through four name changes we have consistently provided accurate, dependable, and timely information to our members and the Minnesota workers' compensation arena.

As just the fifth President in the organization's history, I am humbled to be at the helm of such a distinguished organization and proud of our work that continues to innovate ways to deliver our services to the industry.

Please join us in celebrating our centennial celebration during 2021, but also watch us as we continue to grow and serve the industry over the next decades as well.
